

January 6, 2008

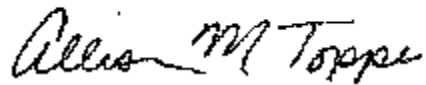

To whom it may concern:

Determined, conscientious, and accommodating describes the work of Joanie See. She is a talented graphic designer, and will be a bright asset to her future employer.

I had the pleasure of working with Joanie as a student to help design a logo, promotional cards, and website for my new yoga practice, sun2moonyoga. She volunteered to do this work, showing tremendous initiative in the midst of school projects and exams. She was responsive to design feedback and requests, and delivered alterations in a timely manner.

The professionalism Joanie demonstrated is a clear indication that she will be an outstanding employee in her graphic design career.

Sincerely,

A handwritten signature in black ink that reads "Allison M Topper". The signature is written in a cursive style with a large, stylized "M".

Allison Topper
